Series *Monographiae Biologicae*, SPRINGER Nature, 2019

Supported by the Austrian Science Fund FWF, Projects P20569-B17 and P23415-B17

Contents

Preface	
Acknowledgements and Permissions	
PART I. General Section	
Chapter 1. The Uroleptidae and the Rigidotrichidae	
Abstract	
1.1 Morphology, Biology, and Terminology	
1.1.1 Body Size, Shape, and Consistency	
1.1.2 Nuclear Apparatus	
1.1.3 Contractile Vacuole and Cytopyge	
1.1.4 Cytoplasm and Colouring	
1.1.5 Cortical Granules, Mucocysts	
1.1.6 Movement	
1.1.7 Somatic Ciliature and Ultrastructure	
1.1.8 Oral Apparatus	
1.1.9 Silverline System	
1.1.10 Life Cycle	
1.2 Phylogeny	
1.3 Classifications and Revisions	
1.4 Parasitism, Symbiosis	
1.5 Ecology, Occurrence, and Geographic Distribution	
1.6 Collecting, Culturing, Observing, and Staining of Hypotrichous Ciliates	
1.6.1 Collecting and Culturing	
1.6.2 Observing Living Hypotrichs	
1.6.3 Staining Procedures	
1.6.4 Preparation for Scanning Electron Microscopy	
1.7 Species Concept and Nomenclature	
1.7.1 Species Concept	
1.7.2 Notes on Nomenclature	
1.7.3 Summary of New Taxa and Nomenclatural Acts	
1.7.4 Deposition of Slides	
Funding	
References	

PART II. Systematic Section	
Chapter 2. Uroleptidae Foissner & Stoeck, 2008 (20 species)	
Abstract	
Key to all valid species assigned to the Uroleptidae	
Uroleptinae Foissner & Stoeck, 2008 (18 species)	
Key to genera of the Uroleptinae	
Funding	
References	
Chapter 3. <i>Uroleptus</i> Ehrenberg, 1831 (3 species)	
Abstract	
Key to the <i>Uroleptus</i> species	
<i>Uroleptus musculus</i> (Müller, 1773) Ehrenberg, 1831	
<i>Uroleptus paramusculus</i> nom. nov.	
<i>Uroleptus piscis</i> (Müller, 1773) Ehrenberg, 1831	
Funding	
References	
Chapter 4. <i>Paruroleptus</i> Wenzel, 1953 (9 species)	
Abstract	
Key to the <i>Paruroleptus</i> species	
<i>Paruroleptus limnetis</i> complex	
<i>Paruroleptus caudatus</i> (Stokes, 1886) comb. nov.	
<i>Paruroleptus limnetis</i> (Stokes, 1885) comb. nov.	
<i>Paruroleptus longicaudatus</i> (Stokes, 1886) comb. nov.	
<i>Paruroleptus lepisma</i> (Wenzel, 1953) comb. nov.	
<i>Paruroleptus lacteus</i> (Kahl, 1932) comb. nov.	
<i>Paruroleptus ophryoglana</i> (Gelei, 1954) comb. nov.	
<i>Paruroleptus willii</i> (Sonntag et al., 2008) comb. nov.	
<i>Paruroleptus magnificus</i> (Kahl, 1932) comb. nov.	
<i>Paruroleptus simplex</i> (Kahl, 1932) comb. nov.	
Funding	
References	
Chapter 5. Uroleptidae which cannot be assigned with certainty to <i>Uroleptus</i> or <i>Paruroleptus</i> (4 species).....	
Abstract	
<i>Uroleptus rattulus</i> Stein, 1859	
<i>Uroleptus lemani</i> Jankowski, 1979	
<i>Uroleptus violaceus</i> Stein, 1859	
<i>Uroleptus sphagni</i> Stokes, 1886	
Funding	
References	

Chapter 6. Incertae sedis in *Uroleptus* (2 species)

Abstract

Uroleptus matthesi Wenzel, 1953

Oxytricha caudata Ehrenberg, 1833 sensu Claparède & Lachmann (1858)

Funding

References

Chapter 7. *Caudiholosticha* Berger, 2003 (2 species)

Abstract

Key to *Caudiholosticha* species

Caudiholosticha stueberi (Foissner, 1987) Berger, 2003

Caudiholosticha antarctica (Park, Min & Kim, 2018) comb. nov.

Funding

References

Chapter 8. Species indeterminata, nomina nuda, and insufficient redescrptions in the Uroleptidae and notes on *Uroleptus* and *Paruroleptus* populations not identified to species level

Abstract

Species indeterminata

Nomina nuda

Insufficient redescrptions

Brief overview of non-morphological papers dealing with *Uroleptus* and *Paruroleptus* populations not identified to species level

Funding

References

Chapter 9. Species misplaced in the Uroleptidae

Abstract

Non-uroleptid hypotrichs

Non-hypotrichous ciliates

Funding

References

Chapter 10. Rigidotrichidae Foissner & Stoeck, 2006 (4 species)

Abstract

Key to the genera of the Rigidotrichidae and to similar taxa

Rigidothrix Foissner & Stoeck, 2006 (1 species)

Rigidosticha Bharti, Kumar & La Terza, 2016 (1 species)

Incertae sedis: *Afrophrya* Foissner & Stoeck, 2006 (2 species)

Funding
