Acknowledgements	IV	M. Segovia and J. Schr�vel: Chemotherapy and Chemoprevention	72
Editors' Foreword	V	A. Grebe�ki and D. C. Wood: Motility, Behaviour, and Orientation	73
Preface	VII	F. Caron and C. L. Jahn: Genomal Organization	78
Members of the International Commission on Protozoology (1989–1993)		R. Brun and H. N. Lanners: Cultivation of Parasitic Protozoa	79
Members of the National Scientific Board		J. Grain and G. Brugerolle: The Cytoskeleton of Protists	83
Members of the Organizing Committee	VIII	A. Adoutte: Molecular Perspective on Evolution	91
List of Authors	X	Y. Watanabe and J. D. Berger: Control of Cell Cycle	97
Plenary Lectures		V. Nussenzweig and J. F. De Jonckheere: Molecular Immunology and Host Parasite Inter- face	99
D. J. Patterson: Protozoa: Evolution and Systematics	1	B. Gottstein and H. Asp�ck: New Diagnosis Techniques	99
J. Beisson: Cytoskeleton and Molecular Basis of Patterning in Ciliates	15	M. M�ller and B. J. Finlay: Protists of Anaerobic Environments	101
M.-C. Yao: Programmed DNA Rearrangements in <i>Tetrahya- mena</i>	24	R. D. Allen and R. K. Peck: Intracellular Traffic	105
C. Behr and L. H. Pereira da Silva: Progress in Some Anti-Protozoan Vaccines Against Human Diseases: Leishmaniasis, Toxoplasmosis, and Malaria	25	A. T. Soldo and S. Fokin: Interaction in Symbiosis	113
E. U. Canning: Opportunistic Protozoa in AIDS	39	P. Cappuccinelli and A. M. Johnson: Mechanisms of Pathogenicity Among Parasitic Protozoa	121
A. M. Johnson: Modern Technologies in Protozoan Research: Aims and Possibilities	48	D. A. Caron and B. J. Finlay: Protozoan Links in Food Webs	125
		D. L. Nelson and Y. Naitoh: Rapid Signal Transduction	131
Symposia		Video Sessions	
R. S. Nussenzweig and J. Eckert: Vaccination	49	H. Gundlach, K. Hausmann, and N. H�lsmann: Presentation of Actual Protistan Video Produc- tions	133
F. R. Opperdoes and J. F. Dubremetz: Functional Aspects of Organelles in Parasitic Protozoa	52		
C. Miceli and A. Miyake: Recognition and Cell-Interaction	53		
C. R. Curds and M. Berezky-Csutor: Protistan Ecology and Pollution: New Habitats, New Horizons	59		
B. Chobotar and T. V. Beyer: Life Cycles of Parasitic Protozoa	65	Contributors	136
